

1. Looking at the representation below, which of these statements are **true**?

313 - 208

Tick the boxes next to **ALL** correct answers

- 115 is the answer.
- 0 10s in the answer.
- 1 exchange needed.
- 105 is the answer.
- 2 exchanges needed.

2. Looking at the representation below, which of these statements are **true**?

424 - 352

Tick the boxes next to **ALL** correct answers

- The answer is 72.
- No 100s in the answer.
- The answer has 3 10s.
- 7 10s in the answer.
- The answer is 132.

3. Looking at the representation below, which of these statements are **true**?

273 - 182

Tick the boxes next to **ALL** correct answers

- No 10s in the answer.
- No 100s in the answer.
- The answer is 91.
- The answer is 111.
- The answer is < 100.

4. Looking at the representation below, which of these statements are **true**?

$$432 - 266$$

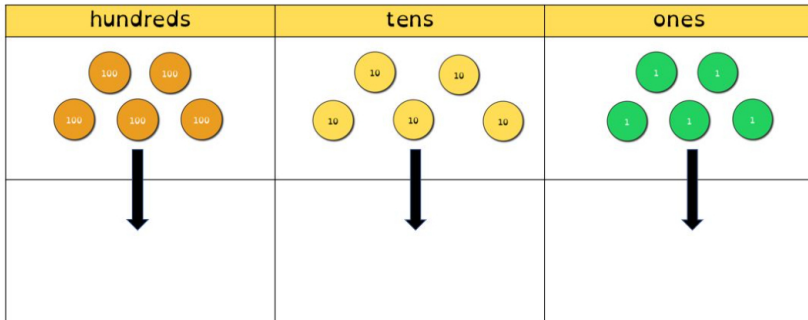

Tick the boxes next to **ALL** correct answers

- The answer is 234.
- 2 exchanges needed.
- The answer is < 200.
- 1 exchange needed.
- The answer is 166.

5. Looking at the representation below, which of these statements are **true**?

$$555 - 347$$

Tick the boxes next to **ALL** correct answers

- The answer is 208.
- 2 exchanges needed.
- The answer is < 200.
- The answer is 212.
- The answer has no 10s.

6. Looking at the representation below, which of these statements are **true**?

$$717 - 362$$

Tick the boxes next to **ALL** correct answers

- The answer has 5 100s.
- The answer has 5 10s.
- The answer has 5 1s.
- The answer is < 400.
- The answer is 355.
