Reading

Chapter 1 – Stig of the Dump

First, the plumbing. Where the water dripped through a crack in the roof of the cave he had wedged the mud-guard of a bicycle. The water ran along this, through the tube of a vacuum cleaner, and into a big can with writing on it. By the side of this was a plastic football carefully cut in half, and Stig dipped up some water and offered it to Barney.

Use the text above to help you draw a diagram of Stig's plumbing. Make sure you label each part.

Challenge

On page nine it says

'There were stones and bones, fossils and bottles, skins and tins, stacks of sticks and hanks of strings.'

Can you write 3 more rhyming pairs to describe what you might find in Stig's den?

1. _____
2. _____
3. _____
