These are suggestions for EXTRA activities. These do not need to be completed, but it is something else if you wanted it.

Edshed.com	On this website you can use the maths shed and the spelling shed. I have set some assignments, but the maths also gives you an option to look at questions based on the year 4 curriculum. The children could revise anything we have done so far.
TT Rock Stars	The children all have a log in for this so they can have a go on the games whilst learning and revising their times tables.
Art	<p>As our topic is 'We Will Rock You' you could go for a walk or a tour of the garden and find some different types of rock. Then you could make a collection and sit quietly to sketch them carefully, looking at shapes and textures.</p> <p>Another idea is to collect a rock and paint a picture on the top. It could be a picture of anything you wish or you could make a Stone Age painting.</p> 
Website Extras	On the website under Willow Class I have added some documents that are called 'extras' these are activities such as maths colouring or SPAG activities. These can be used as and when throughout the term.
