Using the information in the text below, draw a yellow-spotted lizard (to scale) and label it.

Each lizard has exactly eleven yellow spots, but the spots are hard to see on its yellow-green body. The lizard is from 6 to ten inches long and has big red eyes. In truth, its eye are yellow, and it is the skin around the eyes which is red, but everyone always speaks of its red eyes. It also has black teeth and a milky white tongue.

Infer

Why do you think Sachar has dedicated an entire chapter the yellow-spotted lizard?
