

Wednesday – Dinosaur Research

Your job to date is to research the two dinosaurs you chose yesterday.

Use the powerpoint Dinosaur Facts from the class documents

and

[Dinosaur Facts | Types of Dinosaurs | DK Find Out](#)

[Dinosaur Facts for Kids \(kids-dinosaurs.com\)](http://kids-dinosaurs.com)

Relevant programmes from

[BBC iPlayer - Andys Dinosaur Adventures](#)

[What's the coolest dinosaur? | Natural History Museum \(nhm.ac.uk\)](http://nhm.ac.uk) – is your dinosaur one of these

Include:

- When they were alive
- A description of what they looked like
- What they ate
- Habitat (where they lived)
- Size
- 2 or 3 interesting facts
- Create a labelled diagram

Think of an interesting way to display your research, use a fact file (see class documents), make a PowerPoint, make a mini book (see template) make a display board for a museum or pretend to be a palaeontologist and video yourself telling people what you have discovered or a combination of them all!!!! Remember you want me to think your dinosaur is the coolest!
